A: Bots are a common method of farm/gather for lower leveled characters and allow you to do a lot of the work for you. Bots are used by many low level characters because they can usually get the quest rewards easier than a non-bot NPC. If you are looking to use a bot, the main thing you have to consider is how often they will run and the chances of them running at the same time or in the same area. If you decide to use a bot, make sure to use the right bot, one with the features you need. You can find free bots that do what you want at, DotDBot - Free Bot/Exploit/Tool. Simply type in your class, level and what you want the bot to do in the box.
