American fingerstyle guitarist, composer, and teacher, Andy McKee lives in Buffalo, New York. He began playing at the age of 15. He began writing his own original songs and playing in local clubs. This led to bookings on the college circuit and becoming a regular member of the Buffalo area jam scene. Andy has recorded two albums (mostly originals, some standards) and has a third album scheduled for release in the fall of 2018. His music is free of the typical guitar clichés that often accompany the name "fingerstyle". His music has a very relaxed feel with lots of interesting chord changes and tapping patterns. He has a strong sense of the blues, which is often reflected in his compositions and arrangements. He describes his style as a mix of "bluegrass, fingerstyle, traditional Irish, and Old Time." Andy has played with notable artists such as Mary Ann Kennedy, Mark Knopfler, Bert Jansch, and Jon Brant.
