I've been playing every day for the past 2 weeks and just this last week I finally made it into the opening theme. About 2 days ago, I made it all the way through episode 3 and finally made it into episode 4. I beat the bionic Armor King, bested the Blade Spire and most recently the Villain Leader. As soon as I can find out how to make the XB360 version load on episode 4, I'll be ready to beat all the bosses again. Thanks for your help everyone!
