Versions See also List of Nikon compatible filters List of Nikon compatible lenses References External links Category:Cameras introduced in 2007 Category:Digital cameras Category:Photography companies of Japan Category:Software companies of JapanQ: How to get the next non-invalid index when data is selected by user? I have a grid with textbox (td), in which, when i type some text, a next td will be added. If the user has selected the text by Ctrl+A, he can still select text from next td and add it to previous td. Now, the problem is, the index of the valid cell (next non-invalid cell) may not be what we expect. This is what i have: HTML 2d92ce491b
