Use of human gut microbiota and bacterial isolates to monitor the effects of a lipid extract of garlic in mice. This study examined the effects of a lipid extract of garlic (LEG) on the gut microbiome and intestinal physiology in mice. C57BL/6 mice were fed a semipurified diet with (n=15) or without (n=15) LEG (100 mg/kg diet) for 7 days. Their cecal microbial diversity was examined using deep-sequencing of the 16S rRNA gene. Additionally, the relationship between dietary LEG and intestinal physiology was studied by analyzing microbial metabolites, xenobiotics, and short-chain fatty acids. We found that the cecal microbial community

Step 3: If this doesn't fix the issue, I suggest you to uninstall and reinstall your BIOS. Note: When you install the new driver please remember to select the "Remove the device from the system".
