For customers who want to set the option more than once, the following methods exist. [b]Note: These may not be available in every version.[/b]

NcstudioV5453ENGLISHSetup The following are a few topics that can be updated: [b]The default font and size. Of course, you can change them as you like.[/b]

NcstudioV5453ENGLISHSetup 2.

NcstudioV5453ENGLISHSetup This option allows you to change the font used on the console by adding a new name.

NcstudioV5453ENGLISHSetup The reason for changing the font is often to accommodate the screen or accessibility settings used by the hardware. The new font should be available to all users on the computer and should be used for the console

font for each user.

NcstudioV5453ENGLISHSetup Use these steps to make the change:

NcstudioV5453ENGLISHSetup

Select Font and apply your changes.

NcstudioV5453ENGLISHSetup To remove a font, select Clear and then enter the new font name.

NcstudioV5453ENGLISHSetup You can also remove the name entirely by selecting Clear.

NcstudioV5453ENGLISHSetup The console font is the name of the font used to display text messages on the console.

NcstudioV5453ENGLISHSetup If you are using a modifier key when displaying text, that key will be substituted for the console font. This can make it a little more difficult to type out long messages, but it is still

easier than having to enter the console font. NcstudioV5453ENGLISHSetup

Tips for Changing the Font:

NcstudioV5453ENGLISHSetup

Select the font name using the mouse, or type it in the box next to the name.

NcstudioV5453ENGLISHSetup You can also use the "Search" box to search for a font name.

NcstudioV5453ENGLISHSetup To remove a font, select Clear and enter the font name.

NcstudioV5453ENGLISHSetup You can remove the font name entirely by selecting Clear.
