Photoshop 6: Creative Image Editing and Dreamweaver Photoshop 6, released in late 1999, is now a recommended skill for web designers because it comes with integrated Dreamweaver site development tools, which enable the designer to save and build web pages automatically. Dreamweaver provides a basic web page editing environment. It does not have the features and functionality of Photoshop, but it is faster and easier to use and does provide a template set of tools to get you started. New in Photoshop 6 is the interactive web page template system, which enables you to prototype web pages and leave them unchanged until you come back to them later. This allows you to view the page and change the content without having to go back to Dreamweaver. Photoshop 6 also now includes a Flash animation and compositing tool that enables you to add animation, special effects, and more to your web pages. In addition, Photoshop 6 integrates with Dreamweaver; therefore, you can browse web pages in Photoshop without having to open the browser. Photoshop 6 was able to read new Adobe Acrobat format files (.pdf) that will enable you to view and print PDF files, which has helped ease the transition to using Photoshop for the web.

196 Ga. App. 463 (1990) 396 S.E.2d 518 VILCHES v. THE STATE. A90A0899. Court of Appeals of Georgia. Decided November 13, 1990. Nolan R. Chitwood, for appellant. *467 Lewis R. Slaton, District Attorney, Joseph J. Drolet, Thomas H. Player, Assistant District Attorneys, for appellee. SOGNIER, Judge. Donald Vilches was tried jointly with six other individuals and convicted of the offenses of aggravated assault and possession of a firearm during the commission of a crime. On appeal, Vilches contends that the trial court erred in denying his motion to suppress evidence obtained in a search of his home and his subsequent arrest based upon evidence discovered during that search. We affirm. Around 5:00 a. m. on September 6, 1988, Vilches, Alexis Ayala, the child of one of the women who lived in Vilches's apartment, and Mr. Ayala's aunt, were awakened by gunshots. At the time, they were asleep in Vilches's bedroom. Vilches's young son was also in the bedroom but was not awakened by the shooting. When they arose from the bed, they saw that their apartment was ablaze with flames and that a bullet hole had been blasted through the wall of the apartment. The women telephoned 911 and reported that they had been awakened by gunshots. The police received the 911 call shortly before 6:00 a. m. Police officer William Torres and a fire department captain responded to the call. As the captain entered the apartment building, he observed a man lying on the floor, with what appeared to be blood oozing from his face. The captain looked at the man and noted that he was bleeding and appeared dazed. The man was taken to the hospital, where it was determined that he had been wounded in the mouth. Thereafter, the fire department captain went to the apartment building. There he found approximately six bullet holes in the wall of the apartment where the women were sleeping. He observed blood on the wall near the bullet holes. After the police arrived at the apartment building, they were contacted by Chief Deputy Michael Collins, who told the officers that he had an informant tell him that two men had been shot. The police went to the hospital where they took Ayala's statement. The statement did not mention any information the women had given
