Fluent Screen Recorder, just like the name suggests, is an improved version of Simple Screen Recorder, sporting a much more stylish look and some other small upgrades. The app is great if you're a Windows 10 user and would like to record whatever it is that you're doing on-screen. Whether you want to keep in mind how certain actions were achieved, or are creating tutorials for your online channel, the app will serve you just the same. In fact, nobody would accuse you if you'd consider it part of the initial Win10 OS app package. It's that convincing when it comes to looks. It's also easy to use and navigate. The record button is easy to spot, seeing as it covers half of the app's interface. The transparent/solid look does also bring a sense of modernity to the table. Not much to complain about here, although the app won't necessarily take your breath away. Adjusting parameters When it comes to adjusting the app itself, there really isn't much to do.
