Simple World Time is a tiny gadget that can display time from six different locations from any part of the world, directly on your desktop. # The app runs on a very low amount of CPU and system memory. It didn't cause the operating system to freeze, crash or pop up error dialogs. # On the downside, the frame's size cannot be increased, which makes reading the text a difficult task. Installation: 1. Uninstall your current clock app. 2. Double-click the downloaded file. 3. Accept the license agreement and close the file. 4. The installation may take a few minutes. 5. Restart your computer. 6. If you are prompted to allow the installation of additional programs, go ahead and accept. 7. Follow the on-screen instructions to finish the installation. 8. You may get a warning that the installation process has failed. This is not an error, and the tool should now be working. 9. Click on the 'Simple World Time' shortcut icon on your desktop, if you haven't already done so. 10. Double-click on the 'Simple World Time' shortcut icon, if you are prompted to open the app with the default settings. 11. Use the customizing tools to set the default settings. 12. You can now run the app to see the default locations. 13. Click on the 'options' button to set the available time zones. 14.
