Ramdisk 3.10 - program for
creating encrypted disks
(archives) and archiving

files (folders) [RUS]
Archicrypt Ultimate
RAMDisk is a utility for
creating and managing
encrypted partitions on
HDDs. Archicrypt Ultimate
RAMDisk allows you to
create and format removable
media to encrypt or store
files. After installing the
program, a special hidden
sector is created on the disk,
the contents of which
become inaccessible.
