Can you please tell me how can I copy code from the database and insert it back to the database when

I press CTRL + D? I don't know if you have understood what I'm looking for and sorry for my bad English but I hope my question is clear enough. I'm using visual studio 2012 and C#. I have this code: using System; using System.Collections.Generic; using System.Linq; using System.Text; using System.Threading.Tasks; using System.Data.SqlClient; using System.Configuration; namespace WindowsFormsApplication1 { class Program { private SqlConnection con; static void Main(string[] args) { con = new SqlConnection("Initial Catalog=MyDB;Integrated Security=True"); con.Open(); Console.WriteLine("Welcome to the database"); Console.WriteLine("press ctrl + d to go to the next page"); Console.ReadKey(); SqlCommand cmd = con.CreateCommand(); cmd.CommandText = "SELECT * from MYTABLE"; cmd.CommandType = CommandType.Text; cmd.Parameters.AddWithValue("@USERNAME", con.UserName); 3e33713323
