For example, a 240x150 home page is a good size for desktops and tablets. Use the following steps to import a website design: Go to File > Import. Browse to where you saved the PSD file you want to import. Click OK. Select the Horizontal option from the drop-down menu. A horizontal image will appear in the preview area. If you need to change the orientation, simply click the Adjust tab and select the Horizontal option. Click OK. You may need to crop the image if it is too large. You may also need to resize it.
