IntelliGen Download

IntelliGen is a powerful PowerBuilder utility builds multiple applications, libraries, and objects, generating EXEs and PBDs/DLLs. IntelliGen has options for incremental and full builds, using regererate or rebuild (re-import), building a Win 32/16 PBD or DLL, then moving the final output to an install directory. If you are building many applications, IntelliGen is a must-have for every PowerBuilder programmer! Give IntelliGen a try to see what it's really capable of! IntelliGen Features: Full-text search and replace of any/all text within files Automatic generation of .NET Framework pages and controls based on user specified tags/properties in each file Save/Restore files in binary, ASCII, or UTF8 format Cross-Platform -- builds for Windows, Linux, and MacOS X No external dependencies Interactive -- IntelliGen works without command line parameters, any/all files can be edited, selected, or modified Registry keys -- allows multiple configurations with/without restarting Copy/Delete/Move and create empty files and directories Selective file re-saving with specific properties Contains .NET Framework properties/attributes (Generates ASP.NET Winforms webpages for Win Forms applications Step 1: Download the IntelliGen software from IntelliGen.com Step 2: Unpack the archive (RAR or ZIP) to a location of your choice. Note that you should extract the entire archive to a single location. (Optional) Use the following command to find the name of the extracted zip file $ unzip [filename].zip (Optional) Extract the files from the zip file $ unzip -d c:\documents\intelligen [filename].zip Step 3: Move IntelliGen.dll to C:\Windows\System32 (Windows XP) $ mv c:\intelligen.dll c:\windows\system32 (Optional) Create the IntelliGen registry keys Windows 2000 and XP $ regedit Start -> Run -> regedit Step 4: Click on the Create Tab, then Type: IntelliGen to get the name and description for the registry key. Step 5: Create the Intelli

What's New in the IntelliGen?

IntelliGen is a powerful utility to build multiple applications, libraries, and objects, generating EXEs and PBDs/DLLs. It enables PowerBuilder programmers to build and create components, without having to write a single line of code! It has an option to generate up to 1,000 applications at a time. IntelliGen comes with a wizard-based interface that is easy to use. In order to get the most out of IntelliGen, you need to have a good PowerBuilder knowledge. IntelliGen is not a macro or script builder. External links www.intelligen.com Applied Data Technologies Tim has been sharing his space in NYC with Peter, Steve and Robert for quite a

while now. Tim will be sharing more of his space with Robin, Kevin, A.J., Rob and Brian! posted by Tim at 7:20 PM on May 15, 2007 Folks, I have a VERY exciting announcement to make. As you may already know, I've been living in New York City for some time now. Though living in New York is wonderful, the lack of a local family has been bothering me. I was really looking forward to finding that one special family. Well...I've found my family. Today I am very happy to announce that I am moving in with Robin, Kevin, A.J., Rob and Brian. These are great people. I have many reasons for wanting to do this. I know that this is the best solution for all parties concerned. I'm excited about the new chapter of my life. Please come and see me sometime and let's get to know one another! posted by Tim at 11:03 AM on May 14, 2007 Tim has been sharing his space in NYC with Peter, Steve and Robert for quite a while now.
