Players will now pass the ball with more control, through the feet, knees and hips in addition to shoulder and head movements. Players can use the physicality of the animations when attacking, but will also be able to change their passing characteristics, either by moving the ball themselves or by passing it to a teammate. In addition to the technique-focused, physical-based controls, FIFA 22 will introduce a revolutionary new way to score goals and assists. FIFA's unique new scoring system employs a new physics-based set of rules to achieve more accurate and realistic gameplay. "This is a big year for FIFA as the brand makes its return to the forefront of the footballing world, and of the most anticipated video games release of the year," said Aaron McHardy, EA Labels' UK SVP. "That's why this year's game is taking a new and creative approach to gameplay and the player experience." Key game features: FIFA 22 sets its sights on EA Sports' 30th Anniversary with innovations that differentiate the world's most popular sports game from other football titles. FIFA 22 introduces a revolutionary new way to score and create goals. Players can use their physicality to slip a killer pass into the box, but can also change their passing characteristics by moving the ball with different parts of their body, including using the variety of animations available. The new goal-scoring animation system will dynamically change the trajectory of a shot to achieve more realistic results. Physical rules and physics-based attributes will be used to improve the accuracy and responsiveness of passing, shooting and dribbling animations. FIFA 22 also introduces a brand new set of animations that enrich the player experience. Players will have all the freedom to move in the way that you choose to play. The new animations feature more movement in the legs and hips, creating more power and control in the player's approach to a pass. Much of the experience around playing the game will be unique to FIFA. The unique new crowds and environments will create a more intense and authentic atmosphere. Fans will be able to experience more of the drama and intensity of global football matches as well as get immersed in the stories of the individual players and clubs. Dynamic new crowds and environment will track player movement and emotions and react to key moments throughout the match. The crowd can even react to goals scored and reb

FIFA is the best-selling sports franchise of all time, with more than 350 million sales worldwide. The game has been redefining the way that people play and watch football for over 20 years. Play FIFA as you have always wanted to play it, now with: Reinvented Matchday – New cards and adjustments to the way cards work in-game, as well as changes to how matches flow. We’re using these changes to refine the end-to-end gameplay experience on day-to-day and long-term view modes. Instant Team Control – Move and combine quickly on and off the ball, keeping defenders guessing. Players now look and react to the ball, making opposition defence even more unpredictable. Improved Physiological Behaviour – Players will use the ball differently, with footwork and touches reflecting every action in the real game. Improved Tactics – Make multiple adjustments, quickly, without the need to pause the game. Combinations are more fluent, making every attack work tactically. Single-Payer Strategy – Take control of the starting XI, move players and manipulate tactics and the game flow. Improved Online Competition – Interact with all the same players online as in real life, plus all the top international players. New Career Mode – Choose your own path by starting in the Under-17s and progressing through every level, following the development of your own hero. FIFA has redefined the way that fans experience football, and EA SPORTS has built upon its success by immersing players in the game. Now, in FIFA 22, the real-life experience of playing the game is even closer to the real thing. We’ve been working closely with the top players at FIFA to bring every element of the game closer to the action and have identified a series of challenges and opportunities for the future. FIFA 22 will deliver a comprehensive range of gameplay updates to make the game more enjoyable and playable, and give the game even more depth as a result. FIFA is now available on PlayStation4, XboxOne, PC, Nintendo Switch and Google Stadia (coming soon). Under The Hood We are introducing a series of fundamental gameplay innovations that has been in development for several years. Inspired by fan feedback, we’ve made several fundamental improvements to the game and the way players play the game. Our new Card Behaviour System ensures that players control the flow of a match
