Note It's not clear whether every version of Photoshop ships with the version of the application that launched it. In fact, Photoshop appears in the Control Panel in two different categories: Photoshop and Photoshop Elements. I've found that version 7 is available for the Classic, while version 8 is available in the other version.

Photoshop is not expensive, but it is a complex program and must be licensed. We recommend these tips to ensure you are getting the most out of your Photoshop experience. Let's take a look at some of the most useful features in Photoshop. Using a Nudge Tool You can use the nudge tool to quickly change an object or area of an image, and quickly move the object or area to a new location. Hold the shift key while you click the nudge tool to move only that side of the object. Shift + click the tool to move only that edge of the object. Step 1: Select and Nudge Step 2: Set a Nudge Direction Step 3: Set a Nudge Distance The nudge tool has a zoom factor and allows you to move an object in steps, selecting previously defined points along the way. The steps you set for an object with the nudge tool can be interrupted by defining other points along the way. Move over the nudge tool and click the points you want to define. You can define nudge points on multiple objects and then choose an object or group of objects. Press Shift + J (Mac) or Ctrl + J (Windows) to search for nudge points. Objects nudge along or stop nudging at points you define. This feature is also useful when you are defining areas that need to be moved in a particular direction. Step 4: Identify Nudge Points Step 5: Select the Image Step 6: Define the Nudge Start Point Step 7: Define the Nudge Stop Point Step 8: Move the Image Step 9: Repeat Steps 4-8 When you have selected the area you want to nudge, click the nudge tool and drag the image to the desired location. The nudge tool moves the object or image in steps and objects are nudged in the direction you define by default. Step 10: Identify Nudge Points Step 11: Define the Nudge Start Point Step 12: Define the Nudge Stop Point Step 13: Repeat Steps 4-12 Press the 0 key (0 on a number pad) and drag to adjust the number of steps to be moved in steps at the time the nudge tool is selected. Mix List: A Streett-Sloan tour of unusual design around St. Louis Reign has been touring Mooreslice with a star-studded crew (he's a Grammy winner, after all) and talking about design. We're not sure what the endgame was, but from his notes we're going to say it's much more than just a road trip—a street-art tour of St. Louis. From Gallery Row to the Loop, it's an obscure eye candy of architecture and style, a visitor-friendly way to check out otherwise somewhat neglected places and points of interest. As he explores the city, he talks with some of the city's tastemakers, including a prolific local street artist, about what they do and why they do it. On January 21, from 4 to 5 p.m., Reign will be joined by Missy Curtis, founder of Missy's Gentlemen's Club, for a pop-up gallery show at the artist's studio space on Lafayette Avenue, a block north of Union Square. The gallery's upstairs suite features prints by Reign and some other local artists. What that will mean for this space, which was used for art classes and also a music venue, is a mystery. But, as Curtis told us last year, the gent is a "behind the scenes guy" who "loves the creatives" and is "totally cool." She adds: "I'd like to do other shows here." For the record, this gallery is not the location where Curtis asks men to dress as women. It's much more of a club than a gentlemen's club, more like a saucy — well, tasteful — gentlemen's club. At the end of February, Reign travels to Detroit to take part in the 2018 Design Detroit show. But before that, he kicks off a tour at the end of January. The tour begins in St. Louis at Gallery Row. As for the rest of the itinerary, suffice it to say that the show stops include such other local neighborhoods as Grand Center, The Loop, and Vine Street. We're not sure how he plans to fit his visit to the Chouteau Greenway State Park in north St. Louis, but we'll keep an eye

Treating Shabbat Shalom with its creator: Five ways to connect with the Jewish tradition of Shabbat By Karen Larsen On the day that Shabbat comes, Jews in whatever region of the world are called to pause and re-evaluate the priorities of the week. Shabbat is a time when the individual is called to step back from the busyness of the week and consider the world we live in. Even after moving to a new place, we yearn for the repetition of the rituals of Shabbat. We reflect on the days before the Sabbath, the week between Shabbat and Shabbat, and the nights before Shabbat. Feeling disconnected? Reflecting on the weeks before Shabbat can feel like reconnecting in a very simple way. Shabbat Shalom: Reclaiming the tradition Karen Larsen offers five ways to connect with Shabbat Shalom using some of her favorite tools: 1. Read a book about the Jewish tradition A great way to get started with Shabbat is to read a book about the Jewish tradition. Classically, scholars read weekly from a Sefer Torah, or large book of Jewish law. Instead, a Sefer Torah can be used as a frame for exploration. Read from the weekly parsha (Torah portion), which is a collection of topics designed to inspire, spark discussions and deepen relationships. This parsha can act as a guide to help you stay connected with your tradition in your own way. 2. Take a time-out from technology Technology has become a part of our lives. Email in the morning, work on the computer for most of the day, and check your phone for a message or a notification in the evening. It can be difficult to make time for technology, but there is a way. Research shows that 50% of people give up their cable connection during Shabbat. Take a step back from technology for the duration of Shabbat and you will find that your connection to your tradition is more important. 3. Call a friend One of the biggest lies we tell ourselves is that we will connect with people if we wait a year. It is not possible to accomplish meaningful relationships in a year. Reach out to a friend who is also working on disconnecting from technology, to maintain a conversation with someone who is "in the zone" and
