As with any program, Photoshop has its own lingo, and you need to know what a certain term means before you can use it effectively. Fortunately, Photoshop has a glossary of terms that you can use online. Here are some terms to check out: _File_ is the term used to describe an image file in Photoshop. This can be a jpeg, tiff, or raw image. _Layer_ is the basis for everything that you do with your files and is what you manipulate on your working canvas. It is the basic element that holds any changes you make to a photo. _Palette_ is a color area in Photoshop where you can change how colors are displayed. You will be amazed at how much color you can do with a palette that is intended to be used for design applications. This is particularly helpful if you're not using Photoshop for graphics or photo editing. The slider to the right of the palette allows you to change the font colors used in your palette, how and in what order you use color swatches, and what color the color title is. _Window_ is a section of the program containing all the tools that you use to manipulate your work. There are several windows within Photoshop, and they are self-explanatory. Some windows include a place to view layers, design, print, and many other places. _Tool_ is a feature that enables you to perform tasks on your files. There are many tools to work with within Photoshop. You can work with pixel tools, brush tools, adjustment layers, and so on. Creating a New Image in Photoshop Photoshop provides several ways to create a new image: You can create a new file using the File pull-down menu. You can create a new document from the File menu. You can use the New Smart Object. You can use the New Document wizard. You can use the Load File command. You can use the Quick Selection tool. Creating a New File The easiest way to create a new image is to create a new file (or _layer_, as described earlier in this chapter). The process is the same for creating a new file whether you are creating one jpeg, a tiff, or raw image file. I describe the steps for creating a new file in the sections that follow. Follow these steps to create a new file: 1. Choose File�

What's New in the Adobe Photoshop 2021 (Version 22.5)?

NEW YORK (AP) — The Jets have a new general manager in John Idzik, a new coach in Adam Gase, and a new quarterback — likely coming next spring. And now the Jets have another new draft pick. Maurice Smith's replacement by the league as the NFL's chief disciplinarian, Roger Goodell, imposed a four-game suspension Thursday on a player connected to the Jets' bounty scandal. The league cited "repeated efforts to deceive and manipulate" by Saints defensive coordinator Gregg Williams for the punishment of safety Malcolm Jenkins, a five-time Pro Bowl selection. Goodell's harsher approach to player conduct is a direct response to the NFLPA's "fix it" campaign for a deal to reduce domestic violence and sexual assault cases. Goodell pushed back against the union by saying the league is committed to eradicating both types of harassment. "We're at a real turning point in our game and in society with respect to addressing these issues," Goodell said Thursday. "We are committed to ensuring that our football game is played fairly by all." Williams, who was suspended for two games in 2012 for tampering with game balls and for the entire 2013 season, was repeatedly punished by the league over a four-year span. He was suspended for a game in 2011 after the league found he encouraged defensive players to injure opponents, including New Orleans quarterback Drew Brees, and also in 2009 after a video surfaced of him belittling a Saints player during a scouting trip. Goodell's investigation of the Saints was expanded last offseason after a conversation he had with Goodell about it became public. The NFL says it's looking for NFL owners involved in an "established market" to make more inquiries and apply pressure. "We have a lot more to do and we're going to spend a lot more time, energy and resources on these cases," Goodell said. "The credibility of our game will be at stake." Goodell was critical of the NFLPA's players' safety committee for not issuing a position paper on domestic violence when it met in March for its annual meetings. Goodell said he told union executive director DeMaurice Smith he will push the union to do so. "We're really only at the beginning of the process,�
