It can be tough for a hobbyist photographer to realize what is involved in producing images for a daily or weekly newspaper or for magazines or advertising. ## Working with a professional photographer As you grow in your expertise of photography and shooting techniques and technology, you may decide to move into taking commercial or travel assignments, and then you'll definitely be working with a professional photographer. If you're thinking about using Photoshop, it's a good idea to learn the basics first. This guide is written specifically for Photoshop Elements, but many of the concepts will work for Photoshop as well. For the basics, you'll want to check out The Basics of Photoshop and How to Use Photoshop. This guide is for the only version of Photoshop, Photoshop Elements 6.0. Contents Creating A New Document The New Document Window The new document window can be accessed by clicking on the New Document button in the File menu. The document window This will launch the new document dialog box. Simply enter the name of the new document and click OK. The name of the document will appear as "Untitled". What Is The Default Resolution Of A New Document? You can change the default resolution by going to Edit -> Preferences. In the General tab, you can change the default page size (such as 8.5x14), the default resolution (such as 300dpi), the input resolution, and the output resolution. Changing the default resolution preferences Setting the resolution as 300dpi results in a quality that is twice as good as 150dpi. It is a good choice for pictures that will be sized down on the web. Settings for screen printing You can also change the pages per inch setting. PPI is a way of measuring screen-printing resolutions. The higher the number, the higher the resolution. The value is usually written in dots per inch, or dpi, and is measured at a distance of about one inch from the printing surface. You can find more information about PPI here. Pressing Enter To Set The Image Size You can also set the width and height. If you choose the Crop option to set the area of the picture that you want, it will automatically size the image to fill the dimensions you specified. Pressing Enter To Select The Image To Fit The Dimensions Changing the size of the picture by pressing Enter is one of the most important things to learn about Photoshop. Photoshop automatically scales the picture to fit the new dimensions. Saving As A JPEG File If you want to save the file to be smaller, you can save it as a JPEG file. This is also a good idea if you plan to print the picture from a website or the CD you're burning the picture to. 388ed7b0c7

### What's New In?

Squarely on one side and dangerously on the other, the sidewalk dispute between sidewalk merchants and retailers is truly an epic local issue, causing fights to break out over the years and realignment of police policy on which side cops will walk and which side they'll fall in. But even as merchants and their supporters are harangued by state lawmakers, city councilmembers, and police officers as greedy and downright mean to the sideboys who hawk foldouts and blowfish from merchants' doorways, their sworn enemies, who make their money selling bags of chips and candy boxes, they're booming. With the city's population set to balloon over the next two decades, sidewalk operations are a renewable energy source of the new millennium, and it seems that no one wants to be the retail town that doesn't sell. Sidewalk businesses have adapted to the emerging economic trends of the age, merrily ignoring public expenditure cutbacks, ignoring both the squabbling merchants and the resentful providers of goods, and operating on a per-hour basis. Sidewalk businesses—which have already shown massive growth since CVS's purchase of the ailing Washington Street Pharmacy and its pharmacy's closure in 2008—are exploding as the city's population will soon be approaching 2 million people. There are nearly a thousand sidewalk businesses now, says Stephen Rodriguez, executive director of the San Francisco Downtown Association and a former San Francisco Municipal Transportation Agency board member, most in the vicinity of Union Square, Sutter, and Geary, and as many as 3,000 more in the rest of the city. Sidewalk businesses have adapted to the emerging economic trends of the age, merrily ignoring public expenditure cutbacks, ignoring both the squabbling merchants and the resentful providers of goods, and operating on a per-hour basis. "They're professional sidewalk merchant," says Dan Mathews, a two-term mayor in the 1990s and a member of the city council, where he still serves. "It's an art and a craft." There's more to sidewalk vending than a typical corner deli: Some sell beer, some sell flowers or balloons. Some sell pairs of tickets to a concert; some have to log expensive permits and abide by various food-sales regulations. Sidewalk vending is simultaneously a population explosion and an emigration from gentrified neighborhoods, where it's impolite, even if technically legal, to stand in the street and sell a bag of chips
