Hotspot shield mobile. is proud of its developers community and to have such a top rated app. IOS, MAC, Android, Windows Phone, Symbian, BB10, Nokia, Fire OS, the complete package for mobile devices (smartphones, tablets, computers, TVs and."Google took away the flashlight app in the early Google Maps but iOS 10 made it back. Why?" This question has been plaguing Google Maps app developers for a while. Google has not released an iOS app update for about a year or two and it still does not allow developers to make the app support iOS 10. Since Google Maps is still one of the top Google apps for iOS users, Google's lack of interest in iOS is affecting the app's development. Fortunately, iOS users can still access Google Maps by launching the Maps app on their iOS devices. This allows developers to make iOS support for Google Maps as easy as possible. The problem is that not all people know where to access the Maps app when they first start up their iOS device. To help with this, we have compiled a list of the best places to launch the Maps app on iOS devices. How to Launch the Google Maps App on iOS Devices Google Maps is one of the most popular apps on iOS. It works best if you launch it from any of these places in iOS: From the home screen of your iOS device. Tap the Maps icon that is visible at the bottom of the screen. If you are on an iPhone, tap the hamburger icon and then tap Maps. If you are on an iPhone, tap the hamburger icon and then tap. If you are on an
