**I have been searching a lot. But I couldn't get any free robux. There are a lot of people who want to get free robux. But are there any free robux generators without any hidden ties to your account? Yes, there are many free robux sites. Some of them work, but there's a lot of scamming. 4. They want you to pay for robux, but it isn't at the bottom of their site as you would expect, it's at the top.
5. They look suspiciously like the example scam site above, but they have a picture of a real Roblox developer with a special message in the corner.
6. They send you an email that has a very unusual subject line and sends you to a totally different website (one that doesn't even look like the real website).
7. They don't provide a second chance when you question them about the legitimacy of their
