many of the new contributors and engineers have all been working together since '84. Pink Floyd Dark Side of the Moon (Live) Pink Floyd, The Division Bell (Live) For the first time, all Pink Floyd albums have been remastered and re-released with five-channel surround sound. The albums are presented in DTS and Dolby TrueHD 5.1 channel formats on CDs, Blu-ray Discs and in the new 24/96 Multichannel PCM 5.1 surround sound lossless format on DVDs. For two months only, fans can get one of the Pink Floyd albums in a special double-feature box set, the box set also comes with extensive bonus content. For those that buy the box set the entire 10th anniversary box set is free. For those that buy the box set and then buy one of the individual albums, they are 15 percent off the normal price. A lot of projects have been announced at the same time as The Division Bell: The music video for Wish You Were Here and Atoms for Peace have been released in conjunction with the album. The Pulse project was conceptualized by Pink Floyd in 1987, and was originally going to be a recording of the historical exhibition of The Dark Side of the Moon at the Science Museum in London. This idea was later abandoned in favor of the magazine-sized book presented on the band's Wall tour. What became the Pulse box set was developed for the band's Division Bell tour, and in 2012, it was finally released. 5ec8ef588b
