the highlander franchise has been a success for 20 years. but the third movie is a huge step backward, and it's not just because of the writing or the directing. the movie is nothing more than an extended origin story that only works because the original film was so good. the film was again written by the original writer and director, who had no previous experience with movies but did have a strong directorial background. so the script was credited to joel soisson, who was credited for the highlander tv show, the clan macleod, and the sorcerer. the tv show ended after five seasons, and it hasn't been renewed for a sixth season. that's a shame, because although the sorcerer wasn't a good series, it was a quality show. soisson had already written a script for a film that was eventually called highlander: endgame. the script was later re-worked into a screenplay for the sorcerer, which was partly directed by the original highlander director, widen, who was fired for other reasons and was replaced by aarniokoski. the end result was a movie that was a disaster. the original highlander had a solid script and a surprisingly well-written hero. it was also, perhaps, the most complex and dynamic of the films. and in the two sequels, they stayed true to the original film. the result is one of the worst movies in the series, right up there with endgame and even the 1995 film version of the raven. it's not just the bad script that does it, but the poor casting, the bad cgi, the bad editing, the bad acting, the lack of plot, the bad pacing, the bad characterization, the bad effects, and the complete lack of direction. the original highlander was a pretty great series with a great lead actor in ronny cox. the original highlander: endgame was also a pretty good movie, with a good script, amazing visuals, and a great lead performance by rupert everett. the sorcerer on the other hand is the worst of the three movies, with dull, poorly shot cgi, wooden acting, and a meandering, confusing story. most importantly, the story just sucks.

## Highlander 3 The Sorcerer 720p 14

this is probably the weakest highlander movie of all time. they decided to make it a prequel, and that was the beginning of the problems. first off, the characters are very poorly developed. there are very few people in the film, and its because the writers decided to keep it prequel-centric. there are a lot of characters that have not been introduced in previous films that have some significance in the plot, but they are barely seen. they are mostly just thrown in there to get the crowd going. secondly, the plot is just poorly written. no, this is not a case of it being a highlander film. the film does not take itself seriously, and it does not try to be serious. thats the main problem with this film. it seems more like a bunch of nerds sitting around a lunch table trying to come up with a story. then they would have the actors read the script, so they can go along with the ridiculousness. then they would have someone else go and write the script with the actors in mind, but the actors would have to be very specific in the directions they were given. the third main problem with this film is that the film had problems. the actors were not the problem, but the problems in the script were probably the most frustrating. the first problem was the timeline. the film jumps around a lot, and the continuity is so bad that it was hard to follow. it made it seem like the film was badly written. for example, there is a scene where connor and duncan are fighting, and connor jumps off a cliff. they keep cutting to the following day, and when we get back, they are fighting in the forest. it is just another example of the film jumping around too much. the second problem is that some of the scenes in the film are just silly. for example, connor and duncan are doing their beatdowns, and someone has a camera and is filming them. they try to edit it together, but it looks so stupid that it makes me wonder if anyone behind the camera actually knew what they were doing. the third problem was the rushed editing. the film was cut at a hurried pace, and it made it seem like the film was poorly edited. it is really surprising that the movie is finished, but there is still a long way to go. the film will be shown in the next two weeks, and it will be interesting to see what they do with it. they might be able to salvage it and finish the film in time, but i doubt it. 5ec8ef588b
