it takes a hell of a lot of time for tom to figure out hes in love with summer, so he has to slow the action down for us. theres a reason i put that there in the title, and its because we spend about half the film with tom hanging out with summer in her kitchen and the other half with him trying to get her to forgive him. the script for 500 days of summer is far more subdued than that of the 2005 original. in the earlier film, the point was to show the "soul-mate" relationship of tom and summer. in the sequel, the emphasis is on the grey areas in any relationship, and the emotional difficulty of deciding whether or not to discard the idea of a soul mate. 500 days of summer may not have the same heart-wrenching nature that annie hall or even the graduate has, but it is far more emotionally affecting and requires a greater suspension of disbelief. that is because the heart and soul of the film is in its scripts, which give us the opportunity to reflect on the grey areas of any relationship. if you are looking for a light, romantic comedy, this isnt the film for you. if you are looking for a film that will make you cry, then this is that film. 500 days of summer will make you think, and that is its only weakness. the second film in the trilogy, the screenplay for which was written by seth rogen and evan goldberg, will take the concept of the story even further. it will be even more poignant. the third film, also written by the duo, will leave you in tears, probably because the ending will be far too heart-breaking to be true.
